LLE Specialisms:

Leadership, Strategic Management & Development in Education

Current Role:

Headteacher

Profile

I have been Headteacher at East Park Academy for the past three years. During this time we have been on a rapid journey of school improvement from Special Measures (February 2016) achieving below national in all key assessment points to July 2018 where all key assessment points were above national and with our rates of progress being in the top 10% of schools across England.

As a Local Leader in Education I am able to offer leadership and a whole range of school improvement support which includes a whole school coaching development approach.

All children deserve the opportunity to receive the highest quality education and all staff deserve the opportunity to receive the highest quality of development that will enable them to provide it.
