Member of SLT

Assessment coordinator

### Profile

After qualifying in 1997, I have worked in Coventry, Walsall, Sandwell and now Wolverhampton, teaching all year groups in KS2 in one-, two- and three-form entry schools. Throughout my teaching career, I have supported and been supported by a huge number of colleagues in a wide range of contexts, including a role as NQT mentor and in various middle management roles with whole school focuses.

I am extremely proud and excited to have been appointed as an SLE and I am eager to build constructive and supportive relationships with teachers across the MAT and beyond. My proudest moments as a teacher have been in raising, maintaining and celebrating children's self-belief and pride in their achievements. I look forward to supporting and developing colleagues' confidence both in their own practice and in understanding and maximising their opportunities to positively influence the learning and prospects of their children.
