Stay safe and keep smiling

This week is the final week of Summer 1 with our half term break starting on Friday. We are so proud of all of our staff for working hard to ensure that home learning is shared and responded to each week, that Praise assemblies have continued and also for ensuring that provision for key worker families has continued throughout this period. We are so proud of all of our families and children who have engaged so positively with their home learning and who have given their ongoing support to us during this time. A special mention to all of our Year 6s who should have competed their SATs last week—we just know that you would have been truly fantastic!

We look forward to receiving all of your home learning this week and to celebrating with you in our Praise assemblies. Have a safe and relaxing half term that starts on Friday—we truly do miss each and every one of you.

Up to date contact details

ParentMail is an important way for school to communicate with our East Park families, particularly during this period of school closures.

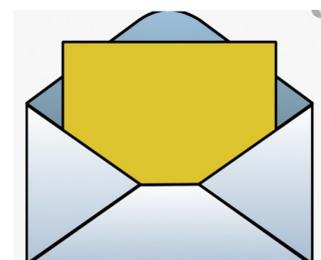

Home learning and this newsletter are shared each week via ParentMail along with other whole school or year group information.

It is important that we have up to date contact details for all of our families to ensure that you are receiving ParentMail messages each week. We do not want you to miss any important updates, particularly when we are currently sharing information in response to government updates about schools.

Please contact school at info@eastparkacademy.com to update us with your current email address, telephone number and home address if there have been any recent changes.

Author corridor competition

At East Park we are so proud of our author corridor that currently displays pictures of Roald Dahl characters and Jeremy Strong books. It is now time for a change....and YOU get to decide which author is added to our fantastic walkway.

You will get the chance to nominate the author that you think should be our winner by sending in a video, a poster, a letter or any other creative way that you can think of. You will need to persuade us why your author should be chosen.

Look out on Friday for a new video created by Mrs Jones in which she will explain all of the details of how to enter.

Times Tables Rock Stars

Lots of high scores again this week with Year 5 our winning year group overall and the boys storming ahead. This week, we challenge any of you who have not played TTRS before, to log on and play—you could even be awarded a certificate for being the highest scoring player in your class or the most improved player. Also TTRS have launched a Guinness World Record attempt and you could try to achieve the 'highest score on TTRS in one minute'. Your attempt must be in a Studio game and you must record your attempt making sure you:

- Show the player clearly playing i.e. hands physically entering numbers
- Show the back of the player's head or profile to see roughly who they are
- Show the score and timer clearly
- Show the start and end of the game, including a clear shot of the game score screen
- Film the attempt in one take and it must be unedited

Please upload your finished video using a file transfer platform such as Google Drive or Dropbox and then email a [link](#) to the video to support@mathscircle.com and provide the name of the player and don't forget to say that you attend East Park Academy.

Another win for year 5 and the boys are victorious yet again!

Year 4	19,885	23,792	🏆 Year 5
🏆 Year 6	18,104	8,808	Year 2
Year 1	3,931	6,683	🏆 Year 3
🏆 All Boys	50,663	30,975	All Girls

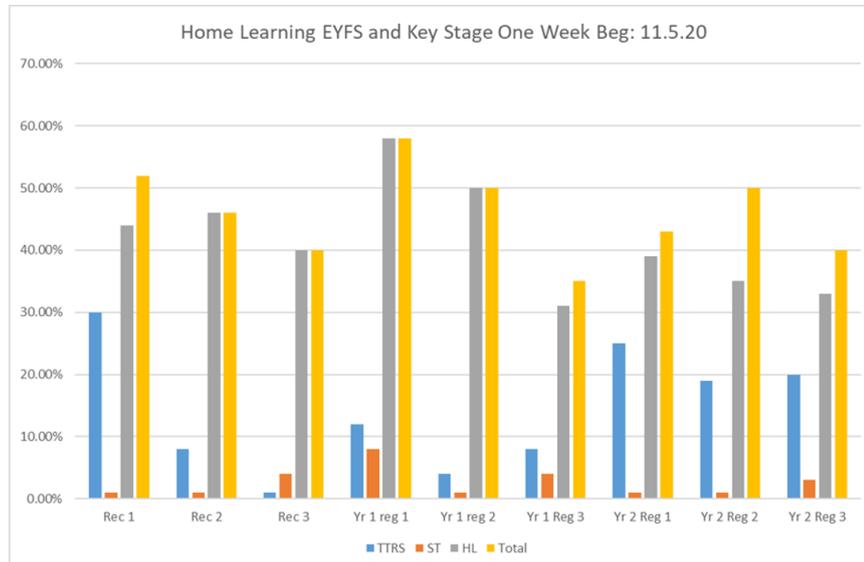

Don't forget to also send your video to your year group email so that we can celebrate your attempt as well. Entries must be in by Thursday 4th June .

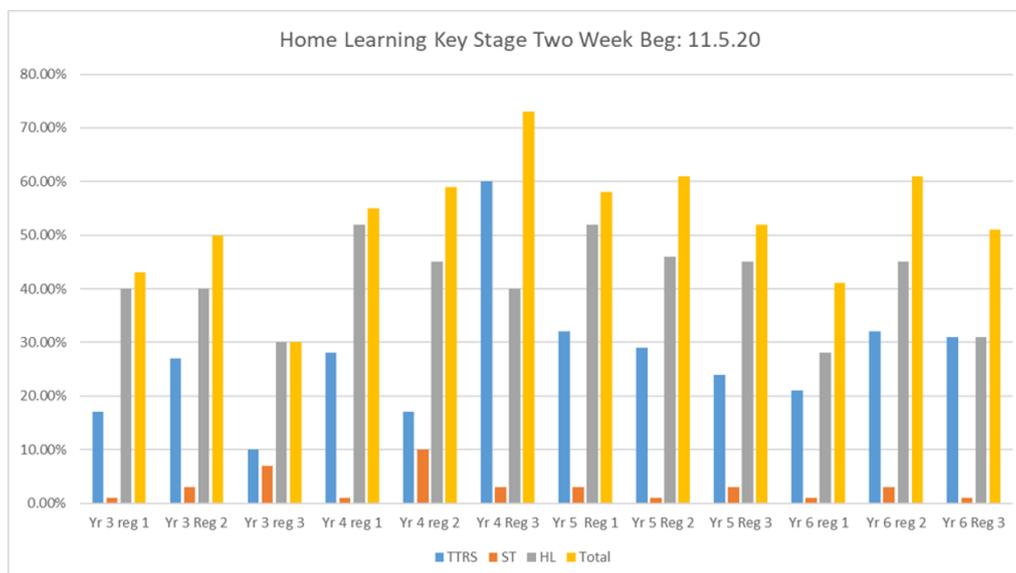

Go Team East Park!

Home learning class champions

This week our class champions in EYFS and Key Stage One are Year 1 Reg 1 with 58% of children sending in their learning—well done! 100 house points to all of the children in Year 1 Reg 1 who shared their learning last week.

This week our class champions in Key Stage Two are Year 4 Reg 3 with 73% of children sending in their learning—well done! 100 house points to all of the children in Year 4 Reg 3 who have shared their learning last week.

This week we would like to set all of our classes a challenge—how many classes can achieve 100% of children sending in their home learning this week? We can't wait to see next week's results to see if any class achieved this. Good luck !
