Road Safety Officers

Children continue to take on roles and responsibilities in school and make us very proud. From prefects, junior leaders and librarians, our children excel in the many jobs they have and one of the roles that Mrs Kempson has been very busy appointing recently are road safety officers. Before and after school is always very busy outside school and it is important that we try to improve the safety for our school and wider community.

Our new pupil Road Safety officers are being trained and will be on duty soon. They will also be on duty with local police officers and together they will be issuing reminders and real tickets to drivers who park illegally. Please help our road safety officers by parking in the correct places and not on pavements or blocking roads or access points.

Polite Reminder

May we also take this opportunity to remind you that unless you have been given authorisation from the school, you should not be parking on the school staff car parks. They are frequently in use throughout the day. Many thanks for your cooperation.

Home Learning– Spring Term

Your child's class teacher is sending out the home learning projects for this term. Look out for a parentmail message coming home today. We will also load the homework guidance on to our website. The projects are a chance for you to get creative with your children and learn about their current topics in school.

We are looking forward to seeing projects ranging from the Frozen Planet to the Vikings; from the Mountains to the Egyptians. In the past we have been delighted to see large models, homemade board games, written accounts and much more.

The homework projects are due in school week beginning Monday 2nd March 2020 where they will be showcased during parents evening, on Thursday 5th March.

Alongside their topics, the children will continue to learn about life 'Through the Decades'. This term we are moving through the 1960s and 1970s.

Head Lice

There have been a few cases of children with head lice this term so we would recommend to parents to:

- Check your child's hair regularly
- Use a fine tooth comb and conditioner once a week

If you find head lice then please:

- treat the whole family with the appropriate treatment. (Some treatments can be given by your GP on prescription)
- Wash all bedding and pillow cases on a boil wash
- Continue to 'wet comb' every other day to remove any eggs
