

East Park's Journey of English

Establish

This is where our teachers inject energy into our new learning journey so that we are eager to find out more. The PURPOSE of why we are writing is established and we learn about what our final outcome will be and how it will be presented.

Explore as a Reader

This is the part of the journey where we will explore the genre of our text as READERS- so what it's like to be on the receiving end of a text (our initial responses). This could include a range of different exploration opportunities and may be revisited several times throughout a journey.

Explore as a Writer

This is the part of the journey where we unpick a text in depth by analysing how the writer has formed a text and how it meets the purpose. This can include genre features, language choices, tone and formality.

Evolve

This is where we begin to develop our own piece of writing through applying our learning so far to write example paragraphs. We plan, draft and edit throughout this stage.

Exhibit (posh piece)

This is where our writing journey ends as we exhibit our final piece of writing in creative and purposeful ways.
